3. [ ] Talked further with George Murphy, on the Joint Committee on Atomic Energy staff, concerning the proposed travel of certain Committee and staff members. Murphy was advised that other than giving a general briefing on travel precautions in all areas, we could not provide much information of assistance in the area which he requested. (See Journal of 14 November) Murphy later said that the staff members would be interested in a briefing on developments particularly any communist party activities in the area that they proposed to visit which might have a bearing on their presence in the area. He was advised that we would look into this and contact him in the near future.
